CERTIFICATIONS

- **Microsoft Certified Associate (Azure Developer - AZ 203)**

RELEVANT PROJECT EXPERIENCE

Project: GINTAA E-COMMERCE May, 2021 to till date

Working on the back end team to manage and develop microservices using spring boot. In this project we deploy them as docker images in the Google Kubernetes Engine. As a product based company it requires good innovation and research to stay updated. For databases various databases like Mongo, Cassandra, Postgre, ElasticSearch are used.

Project: MGM E-COMMERCE May, 2020 to April 2021

Client: MGM

The current project requires migrating existing complex TIBCO code to Spring Boot. There are multiple services we have implemented with having Azure Triggers(eg. Blob Trigger, Http Trigger) to execute them. Also interaction with various databases like MSSQL and Cosmos DB.

Project: MGM ICE April, 2019 to April 2020

Client: MGM

The MGM ICE project has a UI which is developed to book rooms, restaurants, shows and various kinds of customer enrollment used by MGM call center agents. We as developers used to maintain the UI using HTML, CSS, JS and ajax calls and process the request and responses using core java. Also provided production support using Putty and WinSCP to validate whether all of the nodes are working fine or not.
